

FlexRite™ AD1 Anti-Fatigue Drainage Mat

Designed for areas where grease, oil and chemicals are present

- **Location:** Indoor, Outdoor, Platform, Walkway
- **Environment:** Dry, Wet, Oily, Slippery

- **VERSATILE** | Lightweight design allows for easy installation, reconfiguration, and frequent cleanings
- **DURABLE** | Cutting fluid, grease & oil proof; tough abrasion & chemical resistance; welding safe and UV resistant
- **DRAINAGE** | Alternating large & small hole drainage system surrounded with a raised pattern allows liquid, air & light to flow through while keeping debris from work area
- **SAFE** | Beveled edges on all sides provide for a safe transition on and off the mat. Slip-resistant high coefficient of friction materials & design. Applied for NSF certification
- **COMFORTABLE** | Compression (soft rubber compound) and deflection (underside design pattern) work together to give maximum comfort standing still or walking across the mat
- **COMPOUND** | ReviveRite™ high quality 100% recycled nitrile rubber equivalent chemistry

FLEXIBLE DESIGN

AD1 is lightweight & durable. Made from ReviveRite™ compound that is designed to stand up to harsh chemicals while maintaining a high traction surface. It is flexible and easy to roll up unlike traditional food processing & kitchen mats that are heavy and hard to clean. AD1 can be scrubbed with a brush, power washed, autoclaved, or put in a commercial dishwasher.

FlexRite™ AD1 Anti-Fatigue Drainage Mat

WHAT IS REVIVERITE Inside! ?

All FlexRite™ mats and interlocking tiles are molded using 100% post-consumer and post-industrial polymers recycled in an environmentally friendly way in our vertically integrated facilities. The ReviveRite™ process uses food and medicine grade additives to restore the original technical capabilities of various post-use polymers without the harmful side effects of foreign rubber reclaiming process. We produce superior cost-performance compounds that translate into higher-polymer-content, and as such, higher quality molded products as compared to products derived from virgin polymers.

AD1 5/8" ANTI-FATIGUE BEVELED DRAINAGE

| Part Number | Color | Size (ft.)* | Weight |
|--------------------|------------|-------------|---------|
| AD1.58x36x60.BE.BK | Black | 3'x 5' | 21 lbs. |
| AD1.58x36x60.BE.BL | Blue | 3'x 5' | 21 lbs. |
| AD1.58x36x60.BE.GN | Green | 3'x 5' | 21 lbs. |
| AD1.58x36x60.BE.GY | Grey | 3'x 5' | 21 lbs. |
| AD1.58x36x60.BE.TC | Terracotta | 3'x 5' | 21 lbs. |
